To Whom It May Concern:

I have had the pleasure of having Stephanie Neubauer as a student teacher in my classroom from January 4, 2012- April 25, 2012. She fulfilled all her requirements for student teaching while in my classroom.

During her time she was responsible for academic instruction in all subject areas. Mrs. Neubauer created a theme unit and incorporated a bulletin board to go along with it. She used her personal camera and took pictures of the students involved in many different activities.

Stephanie was always willing to offer her assistance and had a good rapport with the students in the classroom. She was very organized and kept excellent records of her daily activities in the classroom.

Sincerely,

Linda Wilson
